

## NEW! FUMECADDIE™

### LIGHT & HEAVY DUTY OPTIONS AVAILABLE

Excellent for any auto mechanic repair shop or full-service auto dealership repair center, the purpose of the Plymovent FumeCaddie™ is used to capture exhaust fumes at the source emitted by any vehicle or apparatus running indoors and extract them from the building. The FumeCaddie™ is directly connected to the vehicle or apparatus tailpipe with the easy-to-use nozzle. The FumeCaddie™ is available with either a single or a dual hose option and is available in Light Duty with a 4 inch hose and Heavy Duty with a 6 inch hose, and can be quickly connected directly to a vehicle, SUV, truck, recreational vehicle, motorcycle or any type of engine exhaust tailpipe.

The FumeCaddie's™ portable exhaust fan will remove the fumes from the source through a suction hose and deliver them to the outside of the structure through the exhaust hose. The extractor consists of a ¾ horsepower 115 volt fan assembly, 33ft/10m of extraction hose (to be cut to your desired lengths for both the suction and exhaust hoses), a simple easy-to-use nozzle, a 9ft/3m power cord, all assembled on an easy to maneuver, ergonomic cart.

**YOU CAN DEPEND ON PLYMOVENT PRODUCTS TO RELIABLY AND CONSISTENTLY MEET THE SPECIFICATIONS THAT YOUR APPLICATION DEMANDS.**

### FEATURES

- ✓ Excellent movability
- ✓ Integrated thermal breaker
- ✓ AMCA certified fan

## CHOOSING THE RIGHT PRODUCT

Choosing the right product for your application is key to ensuring both the cost effectiveness and success of your project. Take a look at the individual core range products - and the applications they are best suited for - to get an idea of your options.

Our superior engineering and manufacturing within published code guidelines and standards are unmet by any other manufacturer in the fire vehicle exhaust industry. Plymovent recognizes the importance of training, for our end users and our distributors. Our nationwide network of distributors all have professionally trained installation and service teams ready to help you and your firehouse.
